SUMMARY

Second-year Information Technology student at St. Joseph's Institute of Technology, concurrently pursuing a B.S. in Data Science and Applications at IIT Madras. Experienced in AI-powered automation, full-stack development, UI/UX, workflow automation, and data-driven product development.

EDUCATION

B. Tech, Information Technology — St. Joseph's Institute of Technology	2025 – 2029
B.S., Data Science and Applications — IIT Madras (Diploma Level)	2025 – 2029

SKILLS

Programming: Python, Java, C, JavaScript, SQL

Web: HTML, CSS, React

AI / Automation: n8n, AI Chatbots, API Integrations, Business Process Automation, Prompt Engineering

UI/UX: Figma, Wireframing, Prototyping, User Experience Design

Tools: Git, GitHub, Vercel, Linux, Windows

Databases: MySQL, Oracle (Basics)

EXPERIENCE

AI Automation Engineer — Fortune Investment Services *Aug 2026 – Present*

- Develop and support AI-driven automation solutions for financial-services workflows.

Automation & UI/UX Developer — Flowcialize *Jun 2026 – Present*

- Design and develop responsive websites tailored to client requirements.
- Build AI-powered automation workflows, chatbots, automated messaging systems, and business process automation.
- Design UI/UX interfaces and interactive prototypes using Figma.

Full Stack Developer Intern — Big Bucks Innovation Pvt. Ltd. *Jun 2026 – Present*

- Develop full-stack web applications and collaborate on feature implementation and product development.

PROJECTS

BIS Compass — Compliance Intelligence Platform *(n8n, APIs, WhatsApp)*

- Built a compliance intelligence platform to streamline BIS-related compliance workflows and automated communication.

NorthStar — AI Data Analysis Platform *(Python, Data Analysis)*

- Analyses uploaded datasets, identifies column types, generates trends, and highlights potential risks.

SkillIssu — Peer-to-Peer Skill Exchange *(React, JavaScript, SQL)*

- Developed a gamified skill exchange platform using a credit-based reward system.

SideNote — Collaborative Note Platform *(React, JavaScript, SQL)*

- Designed a collaborative platform for organizing, managing, and sharing academic notes.

ACHIEVEMENTS

2nd Place — HACKRUSH'26 Hackathon (Rajalakshmi Engineering College)	2026
2nd Place — TECHNO VIT'25 Hackathon (Vellore Institute of Technology)	2025
3rd Place — SPEEDATHON'26 Hackathon (Chennai Institute of Technology)	2026
